Mission and clues

Grades 8-10 | EscapeRoom AI | Mission and clues

The school archive vault has scrambled three records. Recover the three-digit code using only the fictional evidence below.

Vocabulary

Vocabulary	Meaning
tentative	A plan that is not yet confirmed.
effective date	The date a rule or schedule begins to apply.

Lock 1 The opening date

September 2 draft: "We hope to open the club on September 10." September 8 signed notice: "Club opening confirmed for September 12." Choose the supported opening date: September 10 = digit 4; September 12 = digit 7.

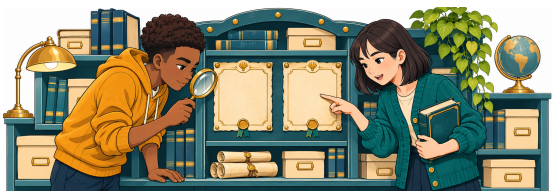

Lock 2 The borrowing rule

The current signed policy says students may borrow 3 devices; staff may borrow 5. A chatbot says every student may borrow 5. Is the chatbot claim supported? Yes = digit 2; No = digit 6.

Lock 3 The missing evidence

Neither notice mentions weekend opening. Is "the club opens every Sunday" established? Yes = digit 1; Not established = digit 9.

Final code: place the digits in lock order. The teacher checks your reasoning before unlocking the vault.

Team response sheet

Grades 8-10 | EscapeRoom AI | Team response sheet

Team _____ Date _____

1. Record the Lock 1 digit and cite the notice that supports it.

2. Record the Lock 2 digit and explain the student versus staff distinction.

3. Record the Lock 3 digit and explain what remains unknown.

4. Write the final code and one evidence check your team used.
